

SAFE DEPOSIT FORM ¹

CBS accession number
(to be filled in by CBS)

Date of receipt
(to be filled in by CBS)

I. Identification of the Microorganism

Identification Reference ² :

Identification name(s) ² :

Mixture of microorganisms: ⁴

II. Recommended Conditions for Cultivations

³

Media:

Temperature:

Remarks on cultivation and storage:

Method(s) for checking the presence of component(s):

¹ To convert a Safe Deposit into a deposit under the regulations of the Budapest Treaty with the same depository institution a special BP/1 form is obtainable at the CBS

² Number, symbols, name, etc., given to the microorganism by the depositor.

³ Mark with a cross if additional information is given on an attached sheet.

⁴ Mark with a cross the applicable box.

III. Properties Dangerous to Health or Environment

³

The microorganism identified under I above has the following properties which are or may be dangerous to health or the environment: ⁴

Safety precautions required: ⁴

The undersigned is not aware of such properties. ⁴

Remarks:

IV. Genetically Modified Organism

³

Dutch legislation requires that we register all Genetically Modified Organisms (GMO's). GMO's are organisms whose genetic composition has been altered in a way that is not possible by means of reproduction and/or natural recombination. Organisms that have been produced by means of recombinant DNA techniques are considered GMO's.

1 Is this a Genetically Modified Organism?

- No Yes

If Yes, please also answer the following questions:

3 Does the GMO contain genetic information, encoding a toxin of class T-3, T-2 or T-1?

- No Yes, namely T... unknown

Definition of toxin classes:

class T-1: toxin with an LD50 for vertebrates of 1 to 100 µg per kg bodyweight

class T-2: toxin with an LD50 for vertebrates of 100 ng to 1 µg per kg bodyweight

class T-3: toxin with an LD50 for vertebrates of 100 ng per kg bodyweight or less

4 Does the GMO contain genetic information for the formation of an infectious virus for eukaryotic cells of class 4, 3 or 2?

- No Yes, namely of class... unknown

5 Does the GMO contain genetic information for the formation of a defective virus for eukaryotic cells of class 4, 3 or 2?

- No Yes, namely of class... unknown

6 Does the GMO contain genetic information for enzymatic functions involved in transposition or conjugation?

- No Yes, transposition Yes, conjugation

7 Does the GMO contain genetic information, encoding a harmful product other than meant under 3?

³ Mark with a cross if additional information is given on an attached sheet.

⁴ Mark with a cross the applicable box.

V. Period of Storage	
The deposited microorganism shall be kept as a Safe Deposit for a minimum period of:	
⁴ <input type="checkbox"/>	5 years Euro 350.--
⁴ <input type="checkbox"/>	10 years Euro 500.--
⁴ <input type="checkbox"/>	15 years Euro 650.--
⁴ <input type="checkbox"/>	20 years Euro 800.--
<p>After the minimum period, the period of storage will be prolonged for a period of 5 years unless the depositor has informed CBS that the Safe Deposit should not be maintained anymore. This request should be received by CBS before the end of the current period. The CBS shall only destroy the Safe Deposit on request of the depositor.</p> <p>An invoice will be sent at the beginning of each new period. When the depositor is no longer fulfilling his financial obligation to CBS than CBS will become the official owner of the Safe Deposit unless the entitled party specified below takes over this financial obligation.</p> <p>A Safe Deposit can be converted, on request of the depositor, into a patent strain deposit under the regulations of the Budapest Treaty with the same depository institution. A special BP/1 form is obtainable at the CBS. As soon as the viability of the deposited microorganism has been checked the date of request will be the date of conversion. From that date the microorganism will be stored in the restricted collection under the regulations of the Budapest Treaty for at least 30 years.</p>	
VI. Entitled party other than the Depositor	
Company Name:	Contact person:
Address:	Tel.nr: Fax.nr:
<p>An entitled party has the same access to a Safe Deposit as the depositor but he is not able to convert the Safe Deposit into a deposit under the regulations of the Budapest Treaty in his name. When the depositor is no longer fulfilling his financial obligation to CBS than the entitled party has the first right to take over this obligation and the entitled party will than become the depositor of the Safe Deposit.</p>	
VII. Depositor	
Company Name:	Contact person:
Address:	Tel.nr: Fax.nr:
Date:	Signature:
